**Subject:** Micorosoft Settlement

Judge Kollar-kotally,

I ask you to vote against the proposed settlement in the Microsoft suit. This proposed final judgement is harmful to the American public as it allows a monopolist to continue his illegal activities. Every court has found Microsoft to have violated anit-trust laws, thereby reaping many billions of dollars of profits. However, this settlement allows the compant to keep virtually all of that!

Please reject the proposed final judgement which only serves to benefit Microsoft.

Sincerely,  
Kasi M. Greene
